

Belaire Range of Mobile Air-Conditioners

H2800

Introduction:

With outstanding performance and only 85 cm in length, the Houghton Belaire H2800 provides greater flexibility for hatches, solar panels, satellite dishes and other equipment without sacrificing year-round comfort.

Features:

1. The H2800 is a low profile, compact, light, and powerful unit :
 - Its small roof top foot print (855 L x 657mm W) allows for better fit with other roof top accessories such as solar panels and hatches.
 - Low profile height of 215mm - allows entry under low car ports.
2. 4-way outlet from the interior unit allows air flow to be directed throughout the living space.
3. Reverse cycle heat pump delivers effective heating and cooling performance from -5°C to +50°C.
4. Strong, lightweight, and durable chassis and canopy made from UV stabilised polypropylene. Able to withstand the toughest conditions and will never rust.
5. Remote control allows access to all air conditioner functions from the comfort of your dining area, chair or bed.
6. Easy to read LED display shows mode and setting temperatures. Display can be turned on or off via the remote control.
7. 3 fan speeds and 5 operation modes - Cool, Heat, Dry (dehumidify), Fan and Auto gives you ultimate control over your living environment.
8. Advanced micro controller automatically takes care of compressor protection, fault monitoring & coil defrost. Timer function allows you to program start and stop times. Great for turning on unit to pre-cool the RV before your return or turning unit off each night if you forget.

Specification:

Power supply	1PH/230~240V/50Hz	Maximum input power	1430W
Cooling capacity	2800W	Maximum current	6.3 A
Power input cooling	1150W	Weight of outdoor unit	32.5 kg
Current cooling	5.0 A	Weight of plenum	3 kg
Heating capacity	2600W	Installation opening (mm)	360 × 360. Optional adapter required for 400 × 400
Power input heating	1120W	Outdoor unit dimension (mm)	855L × 657W × 215H
Current heating	4.8 A	Plenum dimension (mm)	575L × 556W × 49H
